- Roll Call and Introductions
- Approval of Minutes of August 31, 2005
- Draft re-write of Region 43 Plan
- Good of the order

3. Vendor Presentations – 1400 to 1500 (May start earlier if agenda moves quickly)

- **Future Com** – The recently announced MOBEXCOM DVR is the first mobile repeater to support P25. Available in VHF/UHF/700/800, it can be used either in-band or cross-band. This presentation will cover the features of both the MOBEXCOM DVR and the analog MOBEXCOM II. It will also discuss the variety of configurations used by customers to solve coverage and interoperability issues. Rebanding presents a number of challenges for the use of in-band 800 MHz mobile repeaters. The final section of this presentation will discuss the issues and potential solutions.
- **Proxim** – Proxim will provide a brief update on their 4.9 GHz access point equipment.

Future Meeting Dates

- October 26th – Tacoma/Olympia area, specific location still TBD
- November 30th – Eastside location TBD
- December 28th – **No Meeting**
